## CONIFERS

### GRAFTED CONIFERS — LINING OUT STOCK

Listed below is a selection of grafted spruce grown in one and two-gallon pots suitable for lining out in the field or finishing in a container. After planting, we find the growth to be regular and predictable, ensuring even grades in the harvested crop. All spruce varieties are staked in the one and two-gallon containers and, as required, the plants are trimmed and further staked. Please contact us for more information on these liners.
